

Momentum D

With the Momentum Deep dual zone swim spa, you don't have to choose between a backyard swimming pool and a hot tub. Two sets of temperature controls allow you to exercise in cooler water and retreat into warm water. A generous swim area is ideal for stationary swimming, aquatic fitness, and recreation. And the innovative propulsion system delivers a smooth, wide current that you can adjust based on your goals. The adjoining hot tub features ergonomic seating and adjustable jets that target your pressure points to promote relaxation and recovery — for your body and mind.
